

“ Ceramic tile has increasingly become my floor and wall material of choice, interior and exterior. The common thread of my projects is that they require materials that can be easily and quickly installed and that they remain effective despite intensive usage. Plus, the sustainability benefits of tile make this an easy choice. ”

– Matt Dubbe, Mead & Hunt Inc.

TILE FROM SPAIN: THE PRODUCT THAT NEVER SLEEPS.

Certain spaces see more than their share of traffic. Think of the abuse an elementary school floor must endure – thousands of little feet walking, running, jumping day in and day out. Or hospital hallways, as hundreds of doctors, nurses, patients and families go about the business of saving lives. Add gurneys that are rushed down the hall, stat. Supply carts shoved mercilessly against the wall. Airports, same story: millions of passengers, employees and airline crew members, luggage wheels, people-moving carts, wheelchairs – night and day.

Directly related to the impervious glazed surface, or the deep abrasion resistance of an unglazed format, ceramic tile offers a longer lifespan than most floor and wall coverings.

When cleanliness is a must, tile offers unparalleled hygiene benefits. As an inorganic material, mold, mildew, fungus, and other viruses don't stand a chance. Cleaning is a cinch requiring nothing more than hot water. And without the need for harsh chemicals, there's low toxicity impact on our ecosystem.

Schools, airports, hospitality, healthcare. For high traffic, demanding venues, ceramic tile is the ideal building material offering a package of high-performance, functional benefits: durability, easy maintenance, hygienic properties and low lifecycle cost.

For a space that never rests, it requires a product that is poised to be on the job 24/7/365. In this case, ceramic tile is the ideal building material and one that sees its functional benefits rise to the occasion of high-performance specifications. Characteristics such as durability, easy maintenance, hygienic properties and low lifecycle cost create the perfect union when ceramic tile is paired with these demanding venues. There is no building material that holds such a proven track record for durability.

Without the need for costly replacement, repair, refinishing or expensive cleaning regimens, tile also contributes to consumer cost savings over the life of the installation.

Build for life. An easy mantra to follow when you're working with a product that never sleeps. Learn more about how Spanish ceramic goes the distance. Contact Tile of Spain, 2655 Le Jeune, Suite 1114, Coral Gables, FL 33134. Call 305-446-4387 or email miami@mcx.es.
